* Bureau income pays only when the matching non-cargo system line has a moving train and bureau linkage conditions are satisfied.

* Monthly values vary because game months are 4 or 5 weeks (1989 week calendar model in code).

* Build discounts can apply: outer ring discount, Red bonus (build), Orange bonus (bureau cargo), Cyan bonus (running costs).

Bureau Cargo Requirements

Cargo required to place each selectable bureau floor size

Practical Reading

- 1) You need cargo before bureaus: factory + adjacent depot + moving cargo line.
- 2) First-floor bureau is cheapest in materials (1 cargo), but still 10,000 CR per floor.
- 3) Bureau income baseline is 50 CR/floor/week, then subtract train + infrastructure upkeep.
- 4) Protect cashflow: train upkeep is weekly, infra upkeep is monthly, and debt triggers a bankruptcy timer.
